

Diagram illustrating the cross-section of the bridge deck and guard rail. The diagram shows the existing bridge structure (hatched area) and the proposed new 1.2m guard rail (indicated by a red arrow). The guard rail is shown as a vertical structure on the right side of the deck. A label 'Boundary wall' points to the left side of the deck, and another label 'Proposed new 1.2m guard rail' points to the new structure on the right.

PROPOSED SIDE ELEVATION

Proposed new 1.2m guard rail

Boundary wall

wall is taller than shown on these drawings and does not correctly show ground levels in garden of number 30 max height without rails is 7 meters - please refer to additional drawing

A ruler is shown with two scales. The top scale is in centimetres (METRES), with markings from 0 to 5. The bottom scale is in millimetres (MILLIMETRES), with markings from 0 to 50. A red vertical line is drawn at the 40 millimetre mark, which corresponds to the 4 centimetre mark. The segment from 0 to 40 millimetres is shaded in light blue.
